"SOCIAL DIALOGUE AND IMMIGRANT WORKERS – PLAN AND PROGRAMMES FOR INTEGRATION INTO THE LABOUR MARKET"

25 to 27 February 2011, in Amarante – Porto, Portugal.

This Seminar, was intended for experts, executives and directors, academics and researchers directly connected to the issue of immigration, aims to come up with contributions towards defining a plan and action and intervention programmes beneficial for fully integrating immigrant workers both socially and professionally. The theme is topical, and I am sure all will agree with the need for EZA labour movements and trade union associations to forge a common approach that may contribute towards defending a plan and reaching agreement over a programme of action that establishes targets and goals for the social and professional integration of immigrant workers.
